

To all Kitesports Organisations and Kiteriders in the World:

A new Era has begun for Kitesports: like all Sports having the right to that designation, Kitesports has created its own International Federation: International Federation of Kitesports Organisations - IFKO. Like FIFA to Football, ISTF to Soft Tennis, WFDF to Flying Disc or IDBF to Dragon Boat Sports, etc... we now have the reins of our own Sport!

IFKO was created to provide services to develop and protect the interests of Athletes, Practitioners and their Organisations: the National Associations (that will become now "Federations") and the International Organisations of Kitesports.

Every kiterider: Kitesurfer, Snowkiter or Landkiter is welcome to participate in the future of Kitesports, starting by being part of your own Country Federation that now has the right to self-determination.

All the IFKO Working Team, from the Governing Bodies to the Working Committees are Kiteriders and have been selected for their great sense of mission, integrity, impartiality and responsibility... and a great spirit of unity to gather all the real Kiteriders in one, on the same path to success.

The international axis is finally settled with IFKO, so let's build the future our own Sport all together!

Diogo Paes Fernandes & Jean Pierre Pouleau

Presidents of the two IFKO co-founders Members
